

Have students answer individually and/or discuss as a group:

- What does it mean to **think** like a scientist?
- How do scientists like Cecilia go about their work?
- What does it mean to **see** like a scientist?
- What tools do scientists like Cecilia use, and how do they help them see the natural world in new ways?
- What does it mean to **stick with it** like a scientist?
- How do you stick with it when you face challenges and want to give up?

The Fire
of
Stars
