60 Chronicle Books • TEACHER TIPS

THE FIRE OF STARS BY KIRSTEN W. LARSON • ILLUSTRATED BY KATHERINE ROY

Have students answer individually and/or discuss as a group:

- What does it mean to think like a scientist?
- How do scientists like Cecilia go about their work?
- What does it mean to see like a scientist?
- What tools do scientists like Cecilia use, and how do they help them see the natural world in new ways?
- What does it mean to stick with it like a scientist?
- How do you stick with it when you face challenges and want to give up?
